INDEX TO VOLUME XX.

SUBJECTS.

PAGE

ABSORPTION Bands of Solar Spectrum, Oxygen. *O. C. Lester* - - - 81
Spectra of Organic Compounds, Preliminary Communication on Infra-red. *William W. Coblentz* - - - - - - - 207
AFTERGLOW of Metallic Vapors in Nitrogen—A New Band Spectrum. *Percival Lewis* - - - - - - - - - - - - 49
Algol Variable, A New, −15°.4905. *Edward C. Pickering* - - - 296
ALKALI Metals, Some Additions to Arc Spectra of. *F. A. Saunders* - - 188
ARC Spectra of Alkali Metals, Some Additions to. *F. A. Saunders* - - 188
On Conditions which Govern Appearance of Spark Lines in. *Henry Crew* - - - - - - - - - - - - - 274
ATLAS Chart for *T Orionis* Extended. *John G. Hagen* - - - 351
ATMOSPHERES, Escape of Gases from. *G. Johnstone Stoney* - - - 69
BAND, Regularities in Structure of Third Cyanogen. *Franz Jungbluth* - 237
BORRELLY, Comet 1903, and Light-Pressure. *S. A. Mitchell* - - - 63
CHART for *T Orionis* Extended, The Atlas. *John G. Hagen* - - - 351
CLUSTERS, According to Magnitude, Division of Stars in Some of the Globular Star. *C. D. Perrine* - - - - - - - - - 354
COMET 1903, Borrelly, and Light-Pressure. *S. A. Mitchell* - - - 63
COMPOUNDS, Preliminary Communication on Infra-red Absorption Spectra of Organic. *William W. Coblentz* - - - - - - - - - 207
CO-OPERATION in Solar Research. *George E. Hale* - - - - - 306
In Solar Research, International - - - - - - - - 301
COPPER, Detailed Study of Line Spectrum of. *A. S. King* - - - 21
CORONA, On Physical Nature of Solar. *Svante Arrhenius* - - - 224
CROCKER Eclipse Expeditions in 1905. *W. W. Campbell* - - - 235
CROSSLEY Reflector Photographs of Nebulæ and Star Clusters, Note Concerning Publication of. *W. W. Campbell* - - - - - - 295
CYANOGEN Band, Regularities in Structure of Third. *Franz Jungbluth* - 237
DESIDERATUM in Spectrology, A. *Edwin B. Frost* - - - - - 342
DIFFRACTION at a Narrow Slit, Loss of Light by. *J. H. Moore* - - 285
ECLIPSE Expeditions in 1905, The Crocker. *W. W. Campbell* - - 235
Problems, Some Total Solar. *C. D. Perrine* - - - - - - 331
ELECTRIC Thermostat, An. *Horace Darwin* - - - - - - 347
ESCAPE of Gases from Atmospheres. *G. Johnstone Stoney* - - - 69
EXPEDITION to Southern Hemisphere, On Some Results Obtained by the D. O. Mills. *W. H. Wright* - - - - - - - - - 140
FLUOR-SPAR, On Presence of Yttrium and Ytterbium in. *W. J. Humphreys* 266

PAGE

GASES, Escape of, from Atmospheres. *G. Johnstone Stoney* - - - 69
GRAIN in Photography, The Silver. *Robert James Wallace* - - - 113
LICK Objective, Note on Loss of Light in the 36-inch. *J. H. Moore* - - 292
LIGHT in the 36-inch Lick Objective, Note on Loss of. *J. H. Moore* - - 292
LIGHT-PRESSURE, Comet 1903 Borrelly and. *S. A. Mitchell* - - 63
LONGUEURS d'onde étalons, Rapport sur la nécessité d'établir un nouveau système de. *A. Pérot* and *Ch. Fabry* - - - - - - - 318
LOWELL Spectrograph. *V. M. Slipher* 1
MAGNETISM, On Investigation of Simultaneous Occurrences in Solar Activity and Terrestrial. *A. Nippoldt* - - - - - - 202
MEASUREMENT and Reduction of Spectrograms for Determination of Radial Velocities, A Method of. Application to Study of Variable Star *W Sagittarii*. *Ralph H. Curtiss* - - - - - - - 149
Of Stellar Spectra, On New Method for. *J. Hartmann* - - - 149
METALS, Some Additions to Arc Spectra of Alkali. *F. A. Saunders* - - 188
MILLS Expedition to Southern Hemisphere, On Some Results Obtained by. *W. H. Wright* - - - - - - - - - - - 140
NEBULA, Faint Stars near Trapezium in the *Orion*. *J. A. Parkhurst* - 136
NEBULÆ and Star Clusters, Note Concerning Publication of Crossley Reflector Photographs of. *W. W. Campbell* - - - - - 295
In Vicinity of *Nova Persei*. *H. Seeliger* - - - - - - 105
The Number of the. *C. D. Perrine* - - - - - - - 356
NITROGEN, Afterglow of Metallic Vapors in. *Percival Lewis* - - - 49
And Its Oxides, Spectra of. *Percival Lewis* - - - - - - 58
Nova Persei, Nebulæ in Vicinity of. H. Seeliger - - - - - - 105
Note on the Parallax of. *Frank W. Very* - - - - - - 79
NUMBER of the Nebulæ. *C. D. Perrine* - - - - - - - 356
D'ONDE étalons, Rapport sur la nécessité d'établir un nouveau système de longueurs. *A. Pérot* and *Ch. Fabry* - - - - - - 318
Orion Nebula, Faint Stars Near Trapezium in. *J. A. Parkhurst* - - 136
T Orionis Extended, Altas Chart for. *John G. Hagen* - - - - 351
OXYGEN Absorption Bands of Solar Spectrum. *O. C. Lester* - - 81
PARALLAX of *Nova Persei*, Note on the. *Frank W. Very* - - - 79
Plates taken with the Yerkes Telescope. *Frank Schlesinger* - - 123
Persei, Nebulæ in Vicinity of *Nova*. *H. Seelinger* - - - - 105
Persei, Note on Parallax of *Nova*. *Frank W. Very* - - - - 79
PHOTOGRAPHY, Silver "Grain" in. *Robert James Wallace* - - - 113
PRIMARY to Secondary Spectra, On the Transition from. *P. G. Nutting* - 131
RADIAL Velocities, List of Five Stars Having Variable. *V. M. Slipher* - 146
Velocities, A Method of Measurement and Reduction of Spectrograms for Determination of. Application to Study of Variable Star *W Sagittarii*. *Ralph H. Curtiss* - - - - - - - - 149
Of *S Sagittae* and *Y Sagittarii*. *Ralph H. Curtiss* - - - - 231

PAGE

RADIAL Velocity of *T Vulpeculae*. *Edwin B. Frost* - - - - - - 296
REDUCTION of Spectrograms for Determination of Radial Velocities, A Method of Measurement and. Application to Study of Variable Star *W Sagittarii*. *Ralph H. Curtiss* - - - - - - - 149
RESEARCH, International Co-operation in Solar - - - - - - 301
Co-operation in Solar. *George E. Hale* - - - - - - - 306
S Sagittae and *Y Sagittarii*, Radial Velocities of. *Ralph H. Curtiss* - 231
W Sagittarii, Application to Study of Variable Star. A Method of Measurement and Reduction of Spectrograms for Determination of Radial Velocities. *Ralph H. Curtiss* - - - - - - - 149
Y Sagittarii and *S Sagittae*, Radial Velocities of. *Ralph H. Curtiss* - - 231
SATELLITE of *Saturn*, The Ninth. *Edward C. Pickering* - - - 357
Saturn, The Ninth Satellite of. *Edward C. Pickering* - - - - 357
R Scuti and *W Cygni*, On the Spectra of. *Ralph H. Curtiss* - - - 232
SECONDARY Spectra, On Transition from Primary to. *P. G. Nutting* - 131
SILICON Lines in Spark and Stellar Spectra. *A. De Gramont* - - - 233
SILVER "Grain" in Photography. *Robert James Wallace* - - - 113
Slit, Loss of Light by Diffraction at a Narrow. *J. H. Moore* - - - 285
SOLAR Spectrum, Oxygen Absorption Bands of. *O. C. Lester* - - 81
Activity and Terrestrial Magnetism, On Investigation of Simultaneous Occurrences in. *A. Nippoldt* - - - - - - - - 202
Eclipse Problems, Some Total. *C. D. Perrine* - - - - 331
Research, Co-operation in. *George E. Hale* - - - - - 306
Research, International Co-operation in. - - - - - 301
SOUTHERN Hemisphere, On Some Results Obtained by the D. O. Mills Expedition to. *W. H. Wright* - - - - - - - - 140
SPARK Lines in Arc Spectra, On Conditions which Govern Appearance of. *Henry Crew* - - - - - - - - - - - 274
SPECTRA of Nitrogen and Its Oxides. *Percival Lewis* - - - - 58
On the Transition from Primary to Secondary. *P. G. Nutting* - 131
Of Alkali Metals, Some Additions to Arc. *F. A. Saunders* - - 188
Of Organic Compounds, Preliminary Communication on Infra-red Absorption. *William W. Coblentz* - - - - - - - 207
Of *R Scuti* and *W Cygni*. *Ralph H. Curtiss* - - - - 232
Silicon Lines in Spark and Stellar. *A. De Gramont* - - - 233
Of Sun-spots in Red and Yellow Regions of Spectrum. *A. L. Cortie* 253
On Conditions which Govern Appearance of Spark Lines in Arc. *Henry Crew* - - - - - - - - - - - 274
On New Method for Measurement of Stellar. *J. Hartmann* - - 338
SPECTROGRAMS for Determination of Radial Velocities, A Method of Measurement and Reduction of. Applications to Study of Variable Star *W Sagittarii*. *Ralph H. Curtiss* - - - - - 149
SPECTROGRAPH, The Lowell. *V. M. Slipher* - - - - - 1

PAGE

SPECTROLOGY, A Desideratum in. *Edwin B. Frost* - - - - - 342
SPECTRUM, A New Band. Afterglow of Metallic Vapors in Nitrogen. *Percival Lewis* - - - - - - - - - - - - 49
Of Copper, Detailed Study of Line. *A. S. King* - - - - 21
Oxygen Absorption Bands of Solar. *O. C. Lester* - - - - 81
STANDARD Wave-Lengths, Remarks on. *Henry Crew* - - - - 313
STANDARDS of Wave-Lengths, Correction of. *J. Hartmann* - - - 41
Of Wave-Lengths, New. *H. Kayser* - - - - - - - 327
STAR Clusters, According to Magnitude, A Division of Stars in Some of the Globular. *C. D. Perrine* - - - - - - - - - 354
Clusters, Note Concerning Publication of Crossley Reflector Photographs of Nebulæ and. *W. W. Campbell* - - - - - - 295
STARS Having Variable Radial Velocities, List of Five. *V. M. Slipher* 146
In Some of the Globular Clusters, According to Magnitude, A Division of the. *C. D. Perrine* - - - - - - - - - 354
Near the Trapezium in *Orion* Nebula. *J. A. Parkhurst* - - 136
STELLAR Spectra, on a New Method for Measurement of. *J. Hartmann* 338
STRUCTURE of Third Cyanogen Band, Regularities in. *Franz Jungbluth* 237
SUN-SPOTS, Spectra of, in Red and Yellow Regions of Spectrum. *A. L. Cortie* 253
Système de longueurs d'onde étalons, Rapport sur la nécessité d'établir un nouveau. *A. Pérot* and *C. Fabry* - - - - - - - 318
THERMOSTAT, An Electric. *Horace Darwin* - - - - - - - 347
TRAPEZIUM in *Orion* Nebula, Faint Stars near. *J. A. Parkhurst* - - 136
VARIABLE Radial Velocities, List of Five Stars Having. *V. M. Slipher* 146
VELOCITIES, A Method of Measurement and Reduction of Spectrograms for Determination of Radial. Application to Study of Variable Star *W Sagittarii*. *Ralph H. Curtiss* - - - - - - - 149
VAPORS in Nitrogen, Afterglow of Metallic. *Percival Lewis* - - - 49
VARIABLE, A New *Algol*, $-15^{\circ}.4905$. *Edward C. Pickering* - - - 296
VELOCITIES, List of Five Stars Having Variable Radial. *V. M. Slipher* 146
Of *S Sagittae* and *Y Sagittarii*, The Radial. *Ralph H. Curtiss* - 231
VELOCITY of *T Vulpeculae*, Radial. *Edwin B. Frost* - - - - - 296
T Vulpeculae, Radial Velocity of. *Edwin B. Frost* - - - - - 296
WAVE-LENGTH, New Standards of. *H. Kayser* - - - - - - 327
WAVE-LENGTHS, Correction of Standards of. *J. Hartmann* - - - 41
Remarks on Standard. *Henry Crew* - - - - - - - 313
W Cygni and *R Scuti*, On the Spectra of. *Ralph H. Curtiss* - - 232
YERKES Telescope, On Stellar Parallax Plates Taken with. *Frank Schlesinger* - - - - - - - - - - - - - - 123
YTTERBIUM in Fluor-Spar, On Presence of Yttrium and. *W. J. Humphreys* - - - - - - - - - - - - - - 266
YTTRIUM and Ytterbium in Fluor-Spar, On Presence of. *W. J. Humphreys* - - - - - - - - - - - - - 266

INDEX TO VOLUME XX.

AUTHORS.

PAGE

ARRHENIUS, SVANTE. On the Physical Nature of the Solar Corona - 224

BARNARD, E. E. Review of: *The Moon*, with a Complete Photographic Atlas, William H. Pickering - - - - - - - - - 359

CAMPBELL, W. W. The Crocker Eclipse Expeditions in 1905 - 235

Note Concerning the Publication of the Crossley Reflector Photographs of Nebulae and Star Clusters - - - - - - - - 295

COBLENTZ, WILLIAM W. Preliminary Communication on the Infra-red Absorption Spectra of Organic Compounds - - - - - 207

CORTIE, A. L. The Spectra of Sun-spots in the Red and Yellow Regions of the Spectrum - - - - - - - - - - - - - 253

CREW, HENRY. On the Conditions which Govern the Appearance of Spark Lines in Arc Spectra - - - - - - - - - 274

Remarks on Standard Wave-Lengths - - - - - - - - 313

CURTISS, RALPH H. I. A Method of Measurement and Reduction of Spectrograms for the Determination of Radial Velocities. II. Application to a Study of the Variable Star *W Sagittarii* - - 149

The Radial Velocities of *S Sagittae* and *Y Sagittarii* - - - 231

On the Spectra of *R Scuti* and *W Cygni* - - - - - - 232

DARWIN, HORACE. An Electric Thermostat - - - - - - 347

DE GRAMONT, A. Silicon Lines in Spark and Stellar Spectra - - 233

FABRY, CH. and A. PÉROT. Rapport sur la nécessité d'établir un nouveau système de longueurs d'onde étalons - - - - - - - - 318

FROST, EDWIN B. Radial Velocity of *T Vulpeculae* - - - - - 296

A Desideratum in Spectrology - - - - - - - - - 342

HALE, GEORGE E. Co-operation in Solar Research - - - - - 306

HAGEN, JOHN G. The Atlas Chart for *T Orionis* Extended - - - 351

HARTMANN, J. The Correction of the Standards of Wave-Lengths - 41

On a New Method for the Measurement of Stellar Spectra - - 338

HUMPHREYS, W. J. On the Presence of Yttrium and Ytterbium in Fluor-Spar - - - - - - - - - - - - - - 266

JUNGBLUTH, FRANZ. Regularities in the Structure of the Third Cyanogen Band - - - - - - - - - - - - - - - 237

KAYSER, H. New Standards of Wave-Length - - - - - - 327

KING, A. S. A Detailed Study of the Line Spectrum of Copper - - 21

LESTER, O. C. On the Oxygen Absorption Bands of the Solar Spectrum 81

LEWIS, PERCIVAL. The Afterglow of Metallic Vapors in Nitrogen—A New Band Spectrum - - - - - - - - - - - - - 49
